PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

IN THE CLAIMS

Please cancel claims 7-8, 17-18, 27-28 and 34-35 without prejudice, amend claims 1, 11, 21, 31 and 38-39, and add claims 40-47 as follows:

1. (Currently Amended) A method for recommending an item to a user, comprising the steps of:

observing preferences of said user under one or more environmental conditions; and

generating a recommendation score for said item based on features of said item and said observed preferences of said user under said one or more environmental conditions, wherein said one or more environmental conditions includes at least one of a weather condition and a characteristic of motion of said user.

2. (Withdrawn) The method of claim 1, wherein said item is a radio station.

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

3. (Withdrawn) The method of claim 1, wherein said item is content.

4. (Withdrawn) The method of claim 1, wherein said item is a product.

5. (Withdrawn) The method of claim 1, wherein said one or more environmental conditions is a location.

6. (Withdrawn) The method of claim 1, wherein said one or more environmental conditions is one or more characteristics of a location.

Claims 7-8 (Canceled)

9. (Withdrawn) The method of claim 1, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile.

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

10. (Withdrawn) The method of claim 9, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.

11. (Currently Amended) A method for recommending an item to a user, comprising the steps of:

obtaining preferences of said user under one or more environmental conditions;

obtaining information characterizing one or more environmental characteristics for a given time; and

generating a recommendation score for said item based on features of said item, said obtained preferences of said user under said one or more environmental conditions and said one or more environmental characteristics for a given time, wherein said one or more environmental conditions includes at least one of a weather condition and a characteristic of motion of said user.

12. (Withdrawn) The method of claim 11, wherein said item is a

Amendment in Reply to Office Action of August 25, 2005

radio station.

13. (Withdrawn) The method of claim 11, wherein said item is content.

14. (Withdrawn) The method of claim 11, wherein said item is a product.

15. (Withdrawn) The method of claim 11, wherein said one or more environmental conditions is a user location at said given time.

16. (Withdrawn) The method of claim 11, wherein said one or more environmental conditions is one or more characteristics of a location.

Claims 17-18 (Canceled)

19. (Withdrawn) The method of claim 11, wherein said observed

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

preferences of said user under said one or more environmental conditions are recorded in a profile.

20. (Withdrawn) The method of claim 19, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.

21. (Currently Amended) A system for recommending an item to a user, comprising:

a memory for storing computer readable code; and

a processor operatively coupled to said memory, said processor configured to:

observe preferences of said user under one or more environmental conditions; and

generate a recommendation score for said item based on features of said item and said observed preferences of said user under said one or more environmental conditions, wherein said one or more environmental conditions includes at least one of a weather

Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

condition and a characteristic of motion of said user.

22. (Withdrawn) The system of claim 21, wherein said item is a radio station.

23. (Withdrawn) The system of claim 21, wherein said item is content.

24. (Withdrawn) The system of claim 21, wherein said item is a product.

25. (Withdrawn) The system of claim 21, wherein said one or more environmental conditions is a location.

26. (Withdrawn) The system of claim 21, wherein said one or more environmental conditions is one or more characteristics of a location.

Claims 27-28 (Canceled)

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

29. (Withdrawn) The system of claim 21, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile.

30. (Withdrawn) The system of claim 29, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.

31. (Currently Amended) A system for recommending an item to a user, comprising:

a memory for storing computer readable code; and

a processor operatively coupled to said memory, said processor configured to:

obtain preferences of said user under one or more environmental conditions;

obtain information characterizing one or more environmental characteristics for a given time; and

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

generating a recommendation score for said item based on features of said item, said obtained preferences of said user under said one or more environmental conditions and said one or more environmental characteristics for a given time, wherein said one or more environmental conditions includes at least one of a weather condition and a characteristic of motion of said user.

32. (Withdrawn) The system of claim 31, wherein said one or more environmental conditions is a user location at said given time.

33. (Withdrawn) The system of claim 31, wherein said one or more environmental conditions is one or more characteristics of a location.

Claims 34-35 (Canceled)

36. (Withdrawn) The system of claim 31, wherein said observed preferences of said user under said one or more environmental

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

conditions are recorded in a profile.

37.(Withdrawn) The system of claim 36, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.

38.(Currently Amended) An article of manufacture for recommending an item to a user, comprising:

a computer readable medium having computer readable code means embodied thereon, said computer readable program code means comprising:

a step to observe preferences of said user under one or more environmental conditions; and

a step to generate a recommendation score for said item based on features of said item and said observed preferences of said user under said one or more environmental conditions, wherein said one or more environmental conditions includes at least one of a weather condition and a characteristic of motion of said user.

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

39. (Currently Amended) An article of manufacture for recommending an item to a user, comprising:

a computer readable medium having computer readable code means embodied thereon, said computer readable program code means comprising:

a step to obtain preferences of said user under one or more environmental conditions;

a step to obtain information characterizing one or more environmental characteristics for a given time; and

a step to generate a recommendation score for said item based on features of said item, said obtained preferences of said user under said one or more environmental conditions and said one or more environmental characteristics for a given time, wherein said one or more environmental conditions includes at least one of a weather condition and a characteristic of motion of said user.

40. (New) The article of manufacture of claim 38, wherein said item includes at least one of a radio station, content and product.

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

41.(New) The article of manufacture of claim 38, wherein said one or more environmental conditions further includes at least one of a location, and one or more characteristics of said location.

42.(New) The article of manufacture of claim 38, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile.

43.(New) The article of manufacture of claim 38, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.

44.(New) The article of manufacture of claim 39, wherein said item includes at least one of a radio station, content and product.

45.(New) The article of manufacture of claim 39, wherein said one or more environmental conditions further includes at least one

PATENT  
Serial No. 09/825,328  
Amendment in Reply to Office Action of August 25, 2005

of a location, and one or more characteristics of said location.

46.(New) The article of manufacture of claim 39, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile.

47.(New) The article of manufacture of claim 39, wherein said observed preferences of said user under said one or more environmental conditions are recorded in a profile as a set of rules by a decision tree recommender.
